Work experience

2024 Full-stack developer Cooperl
Apprenticeship 09/2024 to 09/2026

Cooperl is an agricultural cooperative specialized in the production, processing, and distribution of pork products.

I work at the IT Department, in the **Web & Mobile Development Division**, which consists of about **twenty people**. We are organized into **multi-project teams** and primarily work using Agile Scrum methodology.

As a **full-stack developer** apprentice, my responsibilities also include :

- Implementing the Repository Pattern (doctrine-like).
- Applying Domain Driven Design (DDD) principles.
- Designing and managing REST APIs.
- Managing PostgreSQL databases.
- Developing, improving, and maintaining internal libraries.
- Front-end development with Vue.js to create and enhance user interfaces for our web applications.

TECH STACK : PHP, Laravel, Git, SQL / PostgreSQL, Vue.js

Hard skills

- **Programming** : C, Java, HTML, CSS, PHP, Laravel, Vue.js
- **Project Management** : Git, Trello, Jira, Agile Scrum
- **Systems & DevOps** : Bash, Docker
- **Databases** : SQL / PostgreSQL
- **Design & Modeling** : Figma, Visual Paradigm, UML
